## **CANDIDATE'S INFORMATION FOR ELECTION TO THE BOARD OF DIRECTORS**

### **Jay Weatherwax:**

The Board of Directors for Woods Edge Section 3 Neighborhood Committee, Inc. has my permission to place my name and biographical information on the ballot for the election of the director to the Association's Board for the three-year term starting immediately after the votes are tabulated at the annual meeting to be held on the selected date in May, 2021.

Name: Jay Weatherwax Property address: 5707 Hickory Hollow St. Phone number: 254-630-5372 Email address: jaywax99@gmail.com \_

Biographical Information: My name is Jay Weatherwax and my family moved to Woods Edge in August 2019. We have wanted to move to Richmond for many years and fell in love with Woods Edge during our ventures looking for a home. My wife Maureen (Mo) is a nurse with Texas Children's and our 2 kids Keira and Jay Jr. attend Foster and Briscoe respectively. I am a 1999 graduate of West Point and subsequently served 8 years on Active Duty as an officer and Chinook Helicopter Pilot. While in the Army, I was fortunate enough to lead some of the finest men and women in Combat and non-combat operations across the US and world. We moved to Katy in 2007 when I transitioned out of the Army. I currently am the Director of Engineering for an Engineering firm in Houston. I am currently serving on the Section 3 IT Committee and very much want to be part of HOA going forward. Our community is filled with great people and families and I would love help lead this community for the next several years. We know there are challenges ahead of us with the continued growth in the surrounding areas and I think together we can preserve the things that makes Woods Edge great along with preparing us for the future.

Signature of Candidate: \_\_\_\_\_ Date: 3/31/2021

## Charles Inman:

I was born in Texas and have lived most of my life in Texas but lived in both Indonesia and Brazil for a stint during childhood. My undergraduate degree is from Wake Forest University where I studied Physics. Wake Forest is also where I met my wife of 15 years, Fiona. I have two daughters that you may have seen around the circle if you live back on Cherry Ridge. My professional career consisted of managing offshore drilling rigs in various countries around the world. These include Mexico, Indonesia, Malaysia and Trinidad. This international experience is relevant because success was predicated on bringing people from all sorts of backgrounds together to successfully achieve our common goals. I have just completed my course work for an MBA at Rice University and am transitioning into a career of entrepreneurship. We've lived here for four years and love the unique charms of Wood's Edge. I believe that openness is the best way to build community and friendships and would serve the community to that end.
